PROFESSIONAL SUMMARY

Computer Science Engineering undergraduate with hands-on experience in software development and cloud infrastructure through academic projects and internship at XPMC. Strong foundation in Data Structures, Algorithms, and Full Stack fundamentals. Seeking an entry-level Software Developer role.

EDUCATION

- **B.Tech** – Computer Science Engineering
Sister Nivedita University | Aug 2023 – Present
CGPA: 8.42
- **Higher Secondary (Science)** | 67%
Subhaspally Bidyaniketan | 2021–2023
- **Secondary Education** | 87.3%
Asansol Ramakrishna Mission High School | 2011-2021

INTERNSHIP EXPERIENCE

Software/Cloud Intern – XPMC (DEC 2025 - FEB 2026)

- Worked on cloud infrastructure automation and optimization projects
- Utilized AWS services such as CloudWatch and CloudTrail for monitoring and logging
- Assisted in infrastructure cost analysis and performance optimization
- Gained hands-on exposure to CI/CD workflows and deployment processes
- Prepared technical documentation and project reports for deliverables

PROJECTS

Healthcare Access Solution – GDG Solution Challenge

Developed a technology-driven solution to improve rural healthcare accessibility, focusing on backend logic and system design using Google technologies in a collaborative team environment.

Smart India Hackathon 2025 – Team Leader

Led a team in a national-level competition, managed system architecture and development tasks, and delivered the final solution within strict deadlines.

TECHNICAL SKILLS

- **Programming:** C, C++, Python
- **Cloud:** AWS
- **Core Concepts:** Data Structures & Algorithms, OOP, DBMS
- **Database:** MySQL, Firebase
- **Web:** HTML5, CSS3, NodeJS, ExpressJS

LEADERSHIP & ACHIEVEMENTS

- 4th Position – Inter-College 'Shark Tank' Event (2024)
- Team Leader – Smart India Hackathon 2025
- Member – 10X Club Coding Ninjas
